Europe continues to struggle with economic uncertainty posing severe challenges to businesses, policy-makers and citizens. As part of "Together for Europe", Christians from different places of the economy and business world are coming together to seek a better understanding of the signs of the times, offering experiences and visions about an "economy for the common good" and raise a prophetic voice of hope for a better European economy and society.

AD: Layout/R. Panzeri • Sculpture: B. Pietrogrande

Towards an economy for the common good
