

4th ENCOUNTER OF ENTREPRENEURS AND MANAGERS OF "THE ECONOMY OF COMMUNION" FROM NORTHERN AND EASTERN EUROPE

24th to 27th October 2013 – Center of Encounter Ottmaring, Germany

THE DYNAMIC OF GIVING

A WAY INTO THE FUTURE FOR COMPANIES, THE ECONOMY AND THE COMMON GOOD

\\ THE EOC	Today our society is ruled by a one sided profit oriented economy and ever new crisis. As an antidote to it the "Economy of Communion (EOC)", a world-wide initiative, proposes the " <i>logic of Giving</i> ", inspired and born from the dynamic of an encompassing fraternity. It takes its inspiration from the life of the early christian communities: "There was no one among them in need." (Apg. 4,34)		
	Entrepreneurs and new-starters, managers, students and anyone interested are invited, to deepen together what this idea entails: in theory and praxis. The encounter will give new impulses for a way of acting that is socially viable, interested in the common good of all and orients all its economical acting in that way.		
	Luigino Bruni (I) – President of the international EoC Commission, Professor of the Economic Sciences, LUMSA- University Rom, Sophia Institute Loppiano/Florence
